## RESEARCH EXPERIENCE

10/2014 - Research Associate  
8/2016 VA Boston Healthcare System

7/2012 - Clinical Research Psychologist  
9/2014 Research Service, VA Boston Healthcare System

Project manager for multicenter, VA-funded, longitudinal cohort study examining neuropsychological and mental health outcomes of Iraq warzone deployment.

- Worked directly under the Chief of Psychology at VA Boston Healthcare System to coordinate research activities between two data collection sites (Boston VA medical Center, Seattle VA Medical Center), a clinical epidemiology research center (West Haven VA Medical Center), and the PI/Study Chair’s office.
- Training and oversight of 3 psychologists, 6 psychometricians, and 3 study coordinators.
- Monitored quality, reliability, protocol adherence of psychiatric and neuropsychological assessments.
- Adhered to GCP/ICH guidelines, and complete IRB reports including amendments, continuing reviews, audits, adverse events, and site closeout reports.
- Oversaw patient safety. Responded to psychiatric emergencies, adverse events, and mental health service requests.
- Data analysis (using SPSS, Mplus, HLM) and interpretation, manuscript preparation, and presentation of findings at local, national, and international scientific forums.

9/2011 - Graduate Psychologist  
7/2012 Massachusetts Veterans Epidemiology Research & Information Center, VA Boston Healthcare System

Site project manager for multidisciplinary, multicenter, DoD-funded, consortium study to develop and evaluate effective early interventions for detection, prevention, and treatment of PTSD in the military.

- Managed the “Assessment Core,” 1 of 6 core leadership groups within the consortium of 100+ investigators and 20+ partnering institutions.
- Communicated regularly with site co-Is, and Core leadership groups to ensure protocol adherence, data integrity, and proper database management.
- Trained and supervised post-doctoral fellows, interns/residents, and masters-level research associates on psychological assessment and clinical interviewing.
- Monitored quality and reliability of psychiatric assessment administration. Performed data analysis and interpretation, wrote manuscripts and presented at national and international forums.

- Wrote grants for submission to NIH and DoD. Wrote IRB reports, including amendments, continuing reviews, and audits. Wrote annual reports for submission to funding agency (DoD).

9/2010 - Predoctoral Research Associate  
8/2011 Trauma, Emotion, & Addictions Lab  
National Center for PTSD, VA Boston Healthcare System

- Collaborated with research faculty examining links between addiction, psychopathology, and psychosocial and physiological indices of emotion, stress, and health.
- Pooled data across multiple SPSS datasets, data cleaning, data quality assurance, data analysis using nonparametric methods, general linear modeling, linear regression models, HLM/mixed models.

8/2005 - University of Texas at Austin  
8/2011 - NIH/NRSA Predoctoral Fellow, Sexual Psychophysiology Lab, Department of Psychology (4/2009 - 8/2011)  
- Graduate Student Researcher, Sexual Psychophysiology Lab (8/2005 - 4/2009)

Conducted NIH-funded intervention study examining the association between quitting smoking and physiological measures of sexual and cardiac health in men (predoctoral fellowship). Designed and conducted randomized, placebo-controlled, crossover trial investigating the pharmacological effects of acute nicotine administration on genital hemodynamic processes in nonsmokers (graduate work).

- Initiated male sexual psychophysiological testing facilities within lab. Utilized photoplethysmography to collect continuous physiological sexual arousal responses and EKG to analyze heart rate variability
- Developed comprehensive tobacco cessation program incorporating pharmacological treatment and behavioral intervention for smoking cessation.
- Trained and managed research team of 16 undergraduate research assistants on recruitment, patient screening, data collection, and data entry.
- Adhered to GCP/ICH guidelines, communication with DSMB, IRB reporting, and writing annual reports for submission to funding agency (NIH).
- Database management, cleaning of physiological time series data, and advanced data analysis.

7/2002 - Stanley Medical Research Institute Predoctoral Fellow/Research Assistant  
8/2005 McLean Hospital/Harvard Medical School, Psychology Research Laboratory

- Worked on NIMH-, NARSAD-, and Eli Lilly-funded behavioral genetics projects studying bio-behavioral indicator traits of schizophrenia and bipolar disorder.
- Collected neurocognitive and ocular-motor function (smooth pursuit eye tracking via corneal- reflected infrared light). Examined patterns of antipsychotic medication profiles and their association with neurocognitive performance.
- Assisted with linkage analysis studies (using MENDEL) to examine genetic markers of schizophrenia.

## RESEARCH FUNDING

4/2009 - Title: Acute and Intermediate Effects of Smoking Cessation on Erectile Function in Men

- 8/2011 Agency: National Institute on Drug Abuse, Ruth L. Kirschstein National Research Service Award (NRSA); (F31DA026276; \$100,572)  
Role: PI. Faculty sponsor: Cindy M. Meston, Ph.D.
